OWOLABI PROSPER

FULL STACK WEB DEVELOPER

ABOUT ME

I'm a dedicated and versatile Full Stack Web Developer and remote freelancer, with a strong command of both frontend and backend technologies. I specialize in building responsive, high-performance web applications using JavaScript, PHP, and modern development frameworks.

With a passion for clean, scalable code and user-centered design, I bring projects to life that are both visually appealing and functionally solid. My background in graphics design and digital branding enhances my ability to craft complete, engaging digital experiences.

Professionally, I've contributed to teams as a Website Designer at Technologies Ltd and as a Graphics Designer at Danny Grafix. Now, as a freelancer, I collaborate with clients worldwide to develop websites, design interfaces, and deliver tailored solutions remotely.

I'm committed to delivering high-quality work that turns ideas into impactful digital products.

WORK EXPERIENCE

Freelance/Remote

2023-- PRESENT

Full-Stack Web Developer

- Deliver end-to-end web solutions for global clients as a remote freelancer, handling everything from front-end interfaces to back-end functionality.
- Collaborate with startups, businesses, and agencies worldwide to build responsive, scalable, and secure web applications — all remotely.

Danny Grafix

2022-2023

Graphic Designer

- Create compelling visual content including logos, flyers, and social media designs that align with client branding and project goals.
- Collaborate with clients to transform ideas into professional graphics, maintaining consistency across digital and print platforms.

Danny Grafix

2021-2022

Wordpress Web Designer

- Design and develop responsive WordPress websites that align with client objectives, ensuring smooth user experience.
- Collaborate with clients and creative teams to implement custom themes, optimize site performance, and maintain brand identity across all pages.
